

MICROBLADING *aftercare*

@carlytrundleartist

01 / *Keep the area clean*

It is important to keep the treated area clean to help prevent infection and ensure proper healing. Gently clean the area with my after wash twice a day.

02 / *Avoid picking or scratching*

Do not pick or scratch at the treated area, as this can lead to infection and may cause the pigment to fade or become uneven.

03 / *Avoid direct sun exposure*

Avoid exposing the treated area to direct sunlight or tanning beds for at least two weeks after the procedure. Sun exposure can cause the pigment to fade or become discolored.

04 / *Protect the area with ointment or cream*

We recommend using a specific ointment or cream to keep the area moisturized and protected. Use a rice grain amount on both brows and pat and leave to dry.

05 / *Avoid strenuous activities*

Avoid activities that may cause sweating or irritation to the treated area, such as exercise or hot showers, for at least a few days after the procedure.

06 / *Avoid make-up*

Avoid wearing makeup on the treated area for at least a few days after the procedure, If you must wear makeup, its better to leave a gap around the brow and be sure to use a gentle, oil-free formula and avoid rubbing or scratching the area.

IT IS IMPORTANT TO FOLLOW THE SPECIFIC AFTERCARE INSTRUCTIONS
PROVIDED TO ENSURE THE BEST POSSIBLE HEALING AND RESULTS
